

Muhammad Abubakar

MERN Stack Developer

+923259407599 | abubakardev62@gmail.com | [GitHub](#) | [LinkedIn](#) | Gujranwala, Pakistan

Professional Summary

Dedicated **React Native** and **MERN Stack** Developer with 2.5 years of experience in building cross-platform apps and full-stack solutions. I enjoy creating clean and scalable systems and have worked on various real-world products such as social apps, education solutions, car rental systems, and the Buycx trading application.

Experience

[IT Oasis](#)

Jul 2023 - June 2024

Role : MERN Stack Developer

[Devsoul Technologies \(Pvt.\) Limited](#)

Jul 2024 - Aug 2025

Role : React Native Developer

[App Crates](#)

Sep 2025 - Present

Role : MERN Stack Developer

Projects

[BUYCEX](#)

Worked on a cryptocurrency trading platform using ThinkPHP and React.js. Developed the P2P trading and Spot trading modules with real-time updates, escrow handling, order book integration, and trade execution. Focused on clean UI/UX, API integration, WebSocket communication, and overall performance optimization.

[Diveln – Social Conversation App](#)

Diveln is a React Native (Expo)-based social app designed to help users stay connected through daily conversation prompts that encourage meaningful group interactions. The app uses Supabase for authentication, database management, and real-time features, ensuring smooth data flow and secure user management. Built with a clean UI, fast performance, and an engaging user experience on Android.

[Personal Portfolio Website](#)

Built a modern and responsive developer portfolio using React.js, TypeScript, and Tailwind CSS. Designed a clean UI to showcase projects, skills, and experience with smooth navigation and optimized performance. Deployed the site using GitHub Pages for fast and reliable hosting.

[Construction Management System](#)

A web-based construction management system designed to streamline project planning, resource allocation, document management, and team communication. The system enables administrators, managers, and clients to manage projects, assign resources, track progress, and securely store construction documents, improving operational efficiency, transparency, and collaboration across all stakeholders.

Technical Skills

Frontend: React Native, React.JS, Next JS, JavaScript (ES6+), TypeScript ,Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js

Database: MongoDB, MySQL

State Management: Redux, Context API

Tools & Platforms: Git & GitHub, Firebase, Expo, VS Code, Postman

Other Skills: REST APIs, Authentication & Authorization, Responsive UI, Third-Party Integrations, Debugging & Performance Optimization

Education

Bachelor's in Information Technology — Virtual University of Pakistan (2024 – Present)

Intermediate in ICS — Govt College Of Satellite Town Gujranwala (2022 - 2024)

Additional Information

- Available for remote or on-site opportunities.
- Passionate about building modern, scalable applications.
- Strong collaboration, problem-solving, and communication skills.
- Actively learning and working on real-world projects to grow as a full-stack developer.
